Address

Minglanillia Springwoods Subdivision
block 1, Lot 10-11

Education

Senior High School – STEM

Southwester University Phinma
2024–2026

Junior High

Immaculate Heart of Mary Academy
2021 – 2023

Barcelona Academy
2023 – 2024

Skills

- C++ Programming
- Kotlin Programming
- HTML
- Android Studio
- Microsoft Office (Word, Excel, PowerPoint)
- Google Workspace
- Web Design
- UI/UX Design
- Mobile App Development
- Robotics & Embedded Systems (basic)
- Software Development
- Project Management
- Leadership & Teamwork
- Problem Solving
- Research & data analysis
- Video Editing

Language

- English

Project Manager – Smart Walking stick for the Visually Impaired

- Led the development of a sensor-based assistive device designed to help visually impaired individuals navigate safely.
- Managed project planning, task delegation, and overall execution from concept to completion.
- Developed approximately 80% of the system's codebase, contributing heavily to core functionality.
- Oversaw the creation and maintenance of a project website for documentation and presentation purposes.

Project Manager –Scientific Calculator in C++ with Figma UI Design

- Led development of a C++ scientific calculator project from planning, UI/UX design (Figma), coding, testing, and final implementation.
- Coordinated team tasks and ensured on-time completion of project milestones.
- Contributed to debugging and refinement of core calculator functions.

Project Manager – “Eyes for the Blind” Web design Project (HTML)

- Led the design and development of a responsive website.
- Handled layout and content organization using HTML.

Research Experience

Research Leader – Quantitative Research (Botanical)

- Led a team of 10 in conducting a quantitative botanical research study, overseeing data collection and analysis.
- Coordinated research tasks, data gathering, and documentation within the team.
- Ensured accuracy in data processing and contributed to interpretation of results.

Research Leader – Qualitative Research

- Led a qualitative research study examining students' academic study time habits through data collection and thematic analysis.

Workshops & involvement

- Kotlin Ui design Competition – Participant
- Android Studio Workshop– Participant
- Project Management Workshop– Participant
